Hi Sherri

Somehow i never saw this until now. I saw your post with the copy paste of Barb Loe Fisher, which you might imagine is very upsetting to our tribe and I personally think most of it (I know you didn't write it - I'm not saying you did) is propaganda.

I wish you the best, but my Joe (Mercola) and my family have known Barb for 40 years and know she is a great human being.

I cannot have things like that written on my page as it upset a great many people in the short time it was up.

Peace  
Erin
