Dear Dr. Leonard Horowitz,
Dear Mrs. Sherri Kane,

This is Nina Vishneva, a New York-based Producer/Reporter of the International Russian-language TV Broadcasting Company CHANNEL 5.

We are doing a TV story regarding the H1N1 swine flu vaccine. I've read about your investigation on this issue in 2009, this is really amazing! Could you please give us a short comment on this report?

CHANNEL 5 is one of the most prominent news broadcasting companies in Russia. A successor of an oldest Russian television company, Leningrad TV, St. Petersburg CHANNEL 5 has grown up to the federal level of broadcasters. It was established in June 1997. Now CHANNEL 5 is available worldwide via the Internet. The program of the channel includes informational, analytic, musical and entertainment programs, talk-shows, the most important transmissions of sport events etc. Every year CHANNEL 5 products receive numerous awards and prizes proving the professionalism of its team.

Thank you for your consideration of my request. I am sure that our audience will greatly appreciate this story if you will choose to grant it to us.

I can be reached at my mobile number [917-495-8864](tel:917-495-8864) or via e-mail: vishnevan@gmail.com

Very truly yours,

Nina Vishneva,
Producer/Reporter
CHANNEL 5
